PROJECTS

Chat Application.....

React, MongoDB, ExpressJS, NodeJS

Live, GitHub

Authentication & Authorization with JWT

- JSON Web Tokens (JWT) are a popular way to handle both securely and scalable. A JWT consists of three parts - Header, Payload, and Signature.

Real-time messaging with Socket.io

- Socket.io is a JavaScript library that enables real-time, event-based bidirectional communication between a client and a server.

Global state management with Zustand

- Zustand provides a simple API for managing global state with minimal boilerplate.

Shoply E-Commerce.....

JavaScript, React, Tailwind

Live, GitHub

Responsiveness

- Responsiveness in web design refers to a web application's ability to adapt its layout and content to different screen sizes, orientations, and device types.

Well motion graphics design

- Motion graphics design combines visual elements like shapes, text, and images with animation to create engaging and dynamic visuals.

Bank Marketing Effectiveness Prediction.....

Python, Google Colab, Keras

GitHub,

- This project focuses on utilizing machine learning techniques to predict the effectiveness of bank marketing campaigns. Machine learning models trained on the dataset include Logistic Regression, Naive Bayes, and Artificial Neural Networks.

Final Observation

- We got 0.90 % of accuracy in logistics regression model
- We got 0.85 % of accuracy in the Naive Bayes model.
- We got 0.91 % accuracy in Artificial Neural Networks.

CERTIFICATES

Web Development From Programming Hero

- Technology: HTML, CSS, Tailwind, JavaScript, React, Node JS, Express JS, MongoDB.

Web Design From BASIS SEIP Project

- Technology: HTML, CSS, Bootstrap, Figma, JavaScript, JQuery

Computer Office Application From BTEB

- Tools: Microsoft Word, Excel, Powerpoint etc.

Professional English Communication Skill From WSDA

- Speaking, Listening.

SUMMARY

Aspiring Software Developer specializing in Web development with architecture. Demonstrates persistent dedication, strong analytical skills, and effective communication abilities to foster collaborative work environments.

SKILLS

Back End	C++, Node JS, Express JS
Front End	JavaScript, React
DBMS	MySQL, MongoDB
Familiar	PHP, Laravel
OS	Windows, Linux(Ubuntu)
DevOps	Docker, GitHub, GitLab
Misc.	AWS, L ^A T _E X
Soft Skills	Resilience, Attentiveness

EDUCATION

Green University **Dhaka,**
of Bangladesh **Bangladesh**
B.Sc. in Computer Science & Eng.
GPA: 3.47/4.00

SCORES

LeetCode

Rate: 1400+, Solved problems: 50+

Codeforces

Rate: 1100+, Solved problems: 10+

LANGUAGES

- Bengali (Native)
- English (Advanced)
- Hindi (Normal)

INTERESTS

- Learning Philosophy
- Fitness
- Cricket
