PROJECTS

Ecommerce Store

React, MongoDB, NodeJs, Tailwind — *Live, GitHub*

Project Description

- This project integrates **MongoDB** and **Redis** to create a scalable e-commerce platform with optimized caching for enhanced performance. It features **Stripe payment setup**, a **robust authentication system** with JWT for secure access and refresh tokens. It includes a complete **product management, cart** and **checkout process**.
- The admin dashboard offers **sales analytics**, and **Tailwind CSS** ensures a modern, responsive design, while advanced **security** and **data protection** measures safeguard user information.

Chat Application

React, MongoDB, ExpressJS, NodeJS — *Live, GitHub*

Project Description

- This project uses the MERN stack with **Socket.io** for **real-time** messaging and online user status tracking, alongside **Zustand** for **global state management**. It includes **JWT-based authentication and authorization** and implements comprehensive **error handling** on both the server and client sides, with a **responsive UI** styled using **TailwindCSS and Daisy UI**

Shoply

JavaScript, React, Tailwind — *Live, GitHub*

Project Description

- This project utilizes **React** to create **reusable components** for efficient development, featuring a **responsive web design** adaptable to all devices, and enhanced with **motion graphics design** for dynamic and engaging visuals.

CERTIFICATES

Web Development From Programming Hero

- Technology: HTML, CSS, Tailwind, JavaScript, React, Node JS, Express JS, MongoDB.

Web Design From BASIS SEIP Project

- Technology: HTML, CSS, Bootstrap, Figma, JavaScript, Jquery

Computer Office Application From BTEB

- Tools: Microsoft Word, Excel, Powerpoint etc.

Professional English Communication Skill From WSDA

- Speaking, Listening.

SUMMARY

Aspiring Software Developer specializing in Web development with architecture. Demonstrates persistent dedication, strong analytical skills, and effective communication abilities to foster collaborative work environments.

SKILLS

Back End	C++, Node JS, Express JS
Front End	JavaScript, React
DBMS	MySql, MongoDB
Familiar	PHP, Laravel
OS	Windows, Linux(Ubuntu)
DevOps	Docker, GitHub, GitLab
Misc.	AWS, LaTeX
Soft Skills	Resilience, Attentiveness

EDUCATION

Green University of Bangladesh — Dhaka, Bangladesh

B.Sc. in Computer Science & Eng.
GPA: 3.47/4.00

SCORES

LeetCode
Rate: 1400+,   Solved problems: 50+

Codeforces
Rate: 1100+,   Solved problems: 10+

LANGUAGES

- Bengali (Native)
- English (Advanced)
- Hindi (Normal)
